Preamble

"To strengthen
the mind by action, and by discipline,
to cultivate the faculties and talents
with which we have been blessed, and to
store the memory with useful knowledge
are exercises which ought to claim the
devoted attention of every individual. —
The mind was formed for activity, and

or constant progression in improvement. There is no resting place in the highway of knowledge; there is no spot at which we may fold our arms, and say with Alexander, we have no more to conquer. Whatever therefore tends to aid us in this intellectual labour, whatever may contribute in the smallest degree to our mental improvement should be cheerfully encouraged by all who have formed an accurate estimate of the importance of such improvement, and by all who are fully aware of the great capacities and high tendencies of the human mind, and of the exalted character of its final destiny.

Under these considerations, and firm in the belief that a Society not only ought to be, but may be formed, and maintained in this Institution, which shall sustain the character which the advanced state of education, at the present day, requires, we are about to form ourselves into an

association for mutual improvement, and therefore adopt for our government, the following Constitution. —

As one of the fundamental principles of our association is never to shrink from the performance of any reasonable service which may devolve upon us, at the request of the society, the aforesaid individuals could not, without "shame and confusion of face" decline the several offices to which they had been elected. Consequently, manifesting a hearty gratitude towards their fellow members for the confidence reposed in them, they were forthwith conducted to their several Chairs, and invested with their respective powers — "But their speeches" were all silent ones" More eloquent than words."

After the Rubicon of initiation into office had been passed the society proceeded to business.

In consequence of a misunderstanding of what was to be the exercise of this meeting the business which had been specified for the present time was, by a vote, postponed until next week.

The Question "Right Universal Suffrage to be allowed?" was brought up for discussion, and it was.

From the fact that several members declared to take a part in the debate were absent, and for themen that "the organs of combativeness and of Justice" in those who were present were not in very energetic operation it was considered expedient after all Arguments had been canvassed by two or three individuals, to postpone the subject, and adjourn the meeting. — Consequently adjourned to 5th day Eve the 15th.

The discussion ~~of the question~~ upon Universal Suffrage was continued, and the question decided in the negative.
